CERTIFICATIONS

WHAT IS UL CLASSIFIED?

Underwriters Laboratories Inc. (UL) develops standards for products safety. In order to gain UL certification, the product must meet ASTM D-2047 static coefficient of friction for slip resistance of 0.5.

WHAT IS ECOLOGO?

ECOLOGO and multi-attribute certifications tell the story of a product's environmental performance throughout its lifecycle, enabling purchasers to identify holistically greener products and meet their sustainability goals. These voluntary, multi-attribute, lifecycle-based environmental certifications indicate that a product has undergone rigorous scientific testing, exhaustive auditing, or both, to prove its compliance with stringent, third-party, environmental performance standards.

MFMA CERTIFIED

The Maple Flooring Manufacturers Association (MFMA) is the authoritative source of technical and general information about maple flooring and related sports flooring systems. MFMA establishes product quality, performance and installation guidelines; educates end users about safety, performance and maintenance issues; and promotes the use of maple, beech and birch flooring products worldwide.

WHAT IS CRI?

This Carpet & Rug Institute tested and certified cleaner effectively removes soil without any damage to the carpet. The CRI Seal of Approval is awarded to carpet cleaning products that pass stringent tests administered by an independent, accredited institute.

WHAT IS TANDUS?

Any Majestic product carrying the Tandus Flooring logo has been tested by Tandus and is approved to be used on any Tandus carpet to keep their floor products in top form.

Drum/ 55 Gal.:	105152	AQH-55MN	100541	AQU-55MN	109194	IPG-55MN

TEMPERATURE

Surface temperature should be above 50 F.

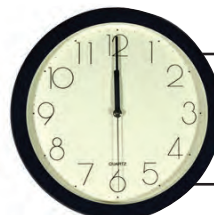

USER TIP

- Remove all grease, oil, and other foreign material before applying coating. For better adhesion on permanent type coatings such as moisture cured urethane or epoxies, it is recommended that the surface be abraded with a 100-mesh screen disk. Smooth dense concrete should be treated by Rejuvenator before application.

RECOMMENDED COMPATIBLE PRODUCTS

Preparation:
Purple Revite - Heavy Duty Cleaner Degreaser (REP) (pg. 23)

DRY TIME

Allow final coat to dry at least 12 hours before allowing heavy traffic on the floor.

WOOD FLOOR CARE

For Finishing All Sports, Commercial And Residential Wood Flooring.

BIODEGRADABLE

- All of these solvents are environmentally friendly, 100% biodegradable. These products contain no petroleum distillates or chlorinated solvents.

USER TIP

- Dissolve** - Can be used as a daily maintenance program to clean lift stations, grease traps, lines, etc. Allow product to drip directly into wet wells and pumping stations.
- Orange Solv** - It rapidly penetrates and dissolves the toughest deposits of grease, grime, dirt, tar, inks, paint, adhesives, and oil residues.
- Bio Solvent Degreaser** - Is a bio-based industrial cleaner not vulnerable to d'limonene's volatile pricing.

BIODEGRADABLE

- All of these solvents are environmentally friendly, 100% biodegradable. These products contain no petroleum distillates or chlorinated solvents.

USER TIP

- **Citrox** - Uses hydrogen peroxide to provide color safe bleaching and deodorizing as well as natural citrus solvents to penetrate oil and grease. Multiple dilutions allow user to customize the product for each cleaning need.
- **Orange Spray** - Simply spray on and wipe off for fast labor-saving cleaning. Cleans without a choking or burning effect, even in areas with minimum ventilation.

WHAT IS BACTERIA CONTENT?

Bacteria are factories that produce enzymes. The enzymes digest their food of choice. Different bacteria produce different enzymes that feast on different substrates. The bacteria content is measured by microbiologists using CFU or colony forming unit.

USER TIP

- After floor cleaning, bacterial action will work on mop heads to keep them from developing a sour mop odor.
- Inherent bacterial action continues to clean between regularly scheduled cleanings to help keep grease accumulations to minimum.

For more info on Solution Depot dilution control see p.66.

For more info on Lock & Fill dilution control see p.68.

Cs./12-32 oz.:	108007	REN-12MN	108649	SRS-12MN	105688	DAZ-12MN

STAINLESS STEEL CLEANING WITH SURE SHINE

Sure Shine - is excellent for removing finger prints, grease and light soil from stainless steel. Provides a thin, protective, water resistant film that will prevent rusting, corrosion and discoloration.

USER TIP

- When using any of these polishes, apply a light amount of product to surface that is to be polished. Wipe immediately using a microfibre or soft clean lint cloth until the surface is shiny.

MULTI SURFACE POLISHING WITH DAZZLE

Dazzle - is a superior blend of silicones, detergents and lemon oils that will clean, polish and protect. Can be used to quickly and easily remove old wax build ups and fill in minor scratches and cracks.

FURNITURE POLISHING WITH RENEW

Renew is a highly refined blend of solvents, lemon oil and cleaning agents used for quick cleanup of furniture and equipment. Resists smears and finger prints.

Drum/ 55 Gal.:	108991	WAS-55MN	108964	VTW-55MN

PROPER USE OF WASH BRYTE

Wash Bryte- Add 1/4 cup for top loaders, 1/8 cup for front loaders and 1/3 cup for large capacity machines or heavily stained laundry.

PROPER USE OF VTW

VTW- removes dirt, grime and traffic film in one application. Can be used with a pressure washer, steam cleaner, automatic car wash or other available methods. Not to be used for hand washing due to high pH which will dry hands and skin.

DILUTION CONTROL SYSTEMS

Precision Dilution Chemical Concentrates & Dilution Center

Your Answer for Simple Convenient Chemical Dilution & Dispensing

DILUTION CONTROL

Solution Depot™ 2.0

Precision Dilution Chemical
Concentrates & Dilution Center

1 Glass & Multi-Surface Cleaner - 108440

A super concentrated glass cleaner formulated with a select blend of surfactants and water soluble solvents to speed the breakup and removal of oil and water-soluble soils on windows, glass, mirrors, ceramic, porcelain, and Formica®. Leaves a surface spotless and streakless.

Dilution Ratio 1:40

[This container will produce 20.5 gallons of ready-to-use product]

Recommended Tip: Bottle Fill- **Aqua** Bucket Fill- **Tan**

For detailed product info see page 16

2 Spray & Wipe Degreaser - 108470

A super concentrated general purpose degreaser designed to cut through all types of grease and grime, and leave surfaces sparkling clean with a fresh pleasant citrus odor. Simply spray and wipe clean. No rinse required.

Dilution Ratio 1:16

[This container will produce 8.5 gallons of ready-to-use product]

Recommended Tip: Bottle Fill- **Green** Bucket Fill- **Beige**

*Hazardous Material according to D.O.T.

For detailed product info see page 27

3 Neutral Disinfectant Cleaner - 108477

A super concentrated hospital grade disinfectant-detergent which cleans, disinfects, and deodorizes in one step. This dual quat formulation is an effective bactericide, fungicide, and virucide in the presence of 5% blood serum. Effective against HIV-Type 1 (AIDS Virus) and Hepatitis B (HBV). Its neutral pH cleans without damage to floor finishes and without requiring any rinsing.

Dilution Ratio 1:256

[This container will produce 128.5 gallons of ready-to-use product]

Recommended Tip: Bottle Fill- **Light Purple** Bucket Fill- **Purple**

*Hazardous Material according to D.O.T.

For detailed product info see page 44

4 No Rinse Floor Cleaner - 108486

A super concentrated neutral floor cleaner specifically formulated for everyday floor cleaning and light duty spray and wipe cleaning. Pleasant fresh scent. Excellent for use in mop and bucket cleaning or automatic floor scrubbers. Neutral pH will not harm floor finishes. Rinses easily, leaving a film-free surface with a pleasant fresh scent.

Dilution Ratio 1:256

[This container will produce 128.5 gallons of ready-to-use product]

Recommended Tip: Bottle Fill- **Light Purple** Bucket Fill- **Purple**

For detailed product info see page 22

5 Non-Acid Disinfectant Restroom Cleaner - 108494

A high powered disinfectant cleaner detergent that cleans the dirt, kills the germs, and leaves the surface clean and fresh in one easy step. It eliminates the highly infectious hepatitis B virus. It's fast and powerful, cutting through and emulsifying tough soils. Ideal for rest rooms in hospitals, nursing homes, schools and other public places. This unique product is an effective bactericide, fungicide, and virucide in the presence of 5% blood serum. Effective against HIV-Type 1 (AIDS Virus) and Hepatitis B (HBV).

Dilution Ratio 1:64

[This container will produce 32.5 gallons of ready-to-use product]

Recommended Tip: Bottle Fill- **Purple** Bucket Fill- **Orange**

For detailed product info see page 46

6 High Performance Degreaser - 108503

A super concentrated heavy-duty cleaner/degreaser designed to remove graffiti, petroleum grease, oil, carbon, food grease, animal fats, smudges, lipstick, smoke film from concrete, machinery, engines, floors, walls, etc. The powerful product dissolves and emulsifies soil, allowing it to be wiped or rinsed away completely.

Dilution Ratio 1:32

[This container will produce 16.5 gallons of ready-to-use product]

Recommended Tip: Bottle Fill- **Yellow** Bucket Fill- **Tan**

*Hazardous Material according to D.O.T.

For detailed product info see page 27

7 Clean & Fresh Spray Deodorizer - 108509

A concentrated water-soluble deodorizer that does not just mask odors but destroys them. A broad-spectrum malodor counteractant eliminates even the toughest odors. Chemically neutralizes the source of the odors caused by smoke, urine, vomit, pets, etc. Ideal for use in institutions, hospitals, sanitariums, factories, kitchens, restrooms, schools, hotels, latrines, septic systems, recreational vehicles or anywhere malodors are a problem.

Dilution Ratio 1:16

[This container will produce 8.5 gallons of ready-to-use product]

Recommended Tip: Bottle Fill- **Green** Bucket Fill- **Beige**

For detailed product info see page 58

10 Mild Acid Multi-Purpose Restroom Cleaner - 108452

A highly concentrated acid restroom cleaner designed to remove soap scum, hard water deposits, rust stains, body oils, fats and dirt. Brightens stainless steel and ceramic tiles. Requires less scrubbing than alkaline cleaners, reducing time and labor.

Dilution Ratio 1:10

[This container will produce 5.5 gallons of ready-to-use product]

Recommended Tip: Bottle Fill- **Tan** Bucket Fill- **Black**

*Hazardous Material according to D.O.T.

For detailed product info see page 56

14 Sanitizer - 108460

An effective sanitizer for use in meatrooms, dairies, poultry plants, bars, restaurants, cafeterias, etc. For use on countertops, eating utensils, drinking glasses, or any hard inanimate, nonporous surface. Will sanitize at a use dilution of 1/4 ounce per gallon of water. No rinsing is required. At 1 ounce per 4 gallons this product (200 ppm active) eliminates 99.999% of the following bacteria in 1 minute in 500 ppm hard water (calculated as CaCO₃) according to the AOAC Germicidal and Detergent Sanitizing Action of Disinfectants test.

- Campylobacter jejuni
- Shigella dysenteriae
- Escherichia coli
- Staphylococcus aureus
- Escherichia coli O157:H7
- Yersinia enterocolitica
- Listeria monocytogenes

Dilution Ratio 1:512

[This container will produce 256.5 gallons of ready-to-use product]

Recommended Tip: Bottle Fill- **Light Orange** Bucket Fill- **Light Purple**

*Hazardous Material according to D.O.T.

For detailed product info see page 36

15 Enzyme Enriched Floor Cleaner - 108465

This product is a high performance, bacterial-enriched floor cleaner, odor eliminator, and grease digester with a pleasant potpourri scent. It is ideal for cleaning and deodorizing grout, ceramic tile, quarry tile, concrete, brick, and rubber mats with floor machine or mopping. For cleaning carpets, use pre-spray or bonnet buffing method. Inherent biological action continues to clean between regularly scheduled cleanings to help keep grease accumulations to minimum. No rinse is required for light duty application. The unique chemistry provides bleaching action that brightens surfaces as it cleans and leaves surfaces sparkling clean with a pleasant scent. Do not use on food contact surfaces.

Dilution Ratio 1:32 & 1:64

This container will produce:

32.5 gallons of RTU product for light to medium duty cleaning

16.5 gallons of RTU product for medium to heavy duty cleaning

Recommended Tip: Bottle Fill- **Yellow (1:32)** / **Purple (1:64)**

Bucket Fill- **Tan(1:32)** / **Orange (1:64)**

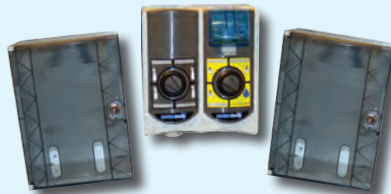

For detailed product info see page 37

Equipment

QDV-KIT / 109171 - Combination of Low and High Flow Rates, Using Separate Eductors

- ◆ Dispenses up to 3 low flow and 1 high flow products.
- ◆ Utilizes AccuPro Pressure Regulation Technology: ensures accurate dilution regardless of water pressure - ensuring optimal product performance!
- ◆ Includes (2) half gallon lockable chemical enclosures.
- ◆ Low cost dispensing, using fewer components to deliver multiple product dilutions and flow rates.
- ◆ E-Gap eductors provide backflow protection.
- ◆ Unique mounting brackets allow for easy installation.
- ◆ Space saving design requires less mounting area.

DSG-KIT / 105751 - Dual High/Low Select Depot with Lockable Button Dispenser

- ◆ Dispenses up to 4 low flow and 3 high flow products plus clear water rinse.
- ◆ Utilizes AccuPro Pressure Regulation Technology: ensures accurate dilution regardless of water pressure - ensuring optimal product performance!
- ◆ Includes (2) half gallon lockable chemical enclosures.
- ◆ E-Gap eductors provide backflow protection.
- ◆ Unique bottle activation allows for easy one-hand filling of spray bottles.
- ◆ Selector valve provides lowest cost multi-product system, along with flexibility for multiple dilutions of one or more products.
- ◆ Unique mounting brackets allow for easy installation.
- ◆ Space saving design requires less mounting area.

ADL-KIT / 105091 - 1 Product Low Flow Depot

- ◆ Dispenses one product, low flow.
- ◆ Utilizes AccuPro Pressure Regulation Technology: ensures accurate dilution regardless of water pressure - ensuring optimal product performance!
- ◆ Includes (1) half gallon lockable chemical enclosure.
- ◆ E-Gap eductors provide backflow protection.
- ◆ Unique mounting brackets allow for easy installation.
- ◆ Space saving design requires less mounting area.

ADH-KIT / 105089 - 1 Product High Flow Depot

- ◆ Dispenses one product, high flow.
- ◆ Utilizes AccuPro Pressure Regulation Technology: ensures accurate dilution regardless of water pressure - ensuring optimal product performance!
- ◆ Includes (1) half gallon lockable chemical enclosure.
- ◆ E-Gap eductors provide backflow protection.
- ◆ Unique mounting brackets allow for easy installation.
- ◆ Space saving design requires less mounting area.

PKG-MCAPKIT - 115160

Lock N Fill products can be used through solution depot equipment by utilizing a mating cap.

All Kit Equipment is Available as Individual Parts

For detailed product info see page 46

LF6 High Performance Degreaser - 107126

A super concentrated heavy-duty cleaner/degreaser designed to remove graffiti, petroleum grease, oil, carbon, food grease, animal fats, smudges, lipstick, smoke film from concrete, machinery, engines, floors, walls, etc. The powerful product dissolves and emulsifies soil, allowing it to be wiped or rinsed away completely.

Dilution Ratio 1:32

[This container will produce 16.5 gallons of ready-to-use product]

*Hazardous Material according to D.O.T.

For detailed product info see page 27

LF7 Clean & Fresh Spray Deodorizer - 107131

A concentrated water-soluble deodorizer that does not just mask odors but destroys them. Chemically neutralizes the source of the odors caused by smoke, urine, vomit, pets, etc. Ideal for use in institutions, hospitals, sanitariums, factories, kitchens, restrooms, schools, hotels, latrines, septic systems, etc.

Dilution Ratio 1:90

[This container will produce 45.5 gallons of ready-to-use product]

For detailed product info see page 58

LF8 UHS Floor Cleaner - 107137

A highly concentrated high powered cleaner specifically formulated to clean burnished, ultra high speed floor finishes. Delivers high performance, low foam cleaning without rinsing and leaves no dulling residue. Keeps floor finishes lasting longer and extends stripping cycles. Ideal for use in mop and bucket cleaning or auto scrubber machine cleaning for any high-speed maintenance program.

Dilution Ratio 1:256

[This container will produce 128.5 gallons of ready-to-use product]

For detailed product info see page 12

Your Answer For Simple Convenient
Chemical Dilution & Dispensing

LF10 Mild Acid Multi-Purpose Restroom Cleaner - 107079

A highly concentrated acid restroom cleaner designed to remove soap scum, hard water deposits, rust stains, body oils, fats and dirt. Brightens stainless steel and ceramic tiles. Requires less scrubbing than alkaline cleaners, reducing time and labor.

Dilution Ratio 1:40

[This container will produce 20.5 gallons of ready-to-use product]

*Hazardous Material according to D.O.T.

For detailed product info see page 56

LF14 Sanitizer - 107089

An effective sanitizer for use in meatrooms, dairies, poultry plants, bars, restaurants, cafeterias, etc. For use on countertops, eating utensils, drinking glasses, or any hard inanimate, nonporous surface. Will sanitize at a use dilution of 1/4 ounce per gallon of water. No rinsing is required. At 1 ounce per 4 gallons this product (200 ppm active) eliminates 99.999% of the following bacteria in 1 minute in 500 ppm hard water (calculated as CaCO₃) according to the AOAC Germicidal and Detergent Sanitizing Action of Disinfectants test:

Campylobacter jejuni, Shigella dysenteriae, Escherichia coli, Staphylococcus aureus, Escherichia coli O157:H7, Yersinia enterocolitica, Listeria monocytogenes.

Dilution Ratio 1:512

[This container will produce 256.5 gallons of ready-to-use product]

*Hazardous Material according to D.O.T.

For detailed product info see page 36

LF15 Enzyme Enriched Floor Cleaner - 107092

This product is a high performance, bacterial-enriched floor cleaner, odor eliminator, and grease digester with a pleasant potpourri scent. It is ideal for cleaning and deodorizing grout, ceramic tile, quarry tile, concrete, brick, and rubber mats with floor machine or mopping. For cleaning carpets, use pre-spray or bonnet buffing method. Inherent biological action continues to clean between regularly scheduled cleanings to help keep grease accumulations to minimum. No rinse is required for light duty application. The unique chemistry provides bleaching action that brightens surfaces as it cleans and leaves surfaces sparkling clean with a pleasant scent. Do not use on food contact surfaces.

Dilution Ratio 1:32 & 1:64

[This container will produce: 32.5 gallons of RTU product for medium/light cleaning, 16.5 for heavy duty cleaning]

For detailed product info see page 37

LF16 Cleaner/Maintainer - 107097

An all-purpose cleaner/maintainer with superior cleaning power for use on any surface not affected by water. Ideal for use on sealed wood floors for cleaning and buffing finishes to a brilliant shine. Provides excellent emulsifying and penetrating action in both hot and cold water. Cleans, polishes, and preserves. Ideal for use with buffing programs. May be used for damp mopping, auto scrubbing or heavy duty cleaning.

Dilution Ratio 1:64

[This container will produce 32.5 gallons of ready-to-use product]

For detailed product info see page 12

SOLUTION DEPOT

Solution Depot is designed to allow users to interchange dilution tips depending on soil load. Our recommended tips will dispense product at the Lock & Fill dilution rate.

LOCK & FILL

Lock & Fill bottles are shaped uniquely to fit precisely into the dispenser. This "lock and key" design makes Lock & Fill a proprietary dilution control system.

Majestic[®]

Carpet Solutions

When you use the Majestic brand of Carpet Solutions from MISCO Products Corporation, you get next generation carpet care formulations with Gemini Surfactant Technology. Gemini Surfactant Technology offers multifunctional performance by cleaning and revitalizing carpet fibers better than conventional surfactants due to its advanced surface-active properties. With the addition of Gemini Surfactant Technology, the Majestic brand remains the most revolutionary and advanced brand in the carpet care industry today.

CARPET CARE

Carpet Extraction Cleaners For Use On All Types Of Carpeting.

(pg. 74)

WHAT ARE GEMINI SURFACTANTS?

Gemini surfactants have two hydrophilic head groups, in contrast to conventional surfactants that have a single hydrophilic head. Gemini surfactants can be up to a thousand times more surface active than conventional surfactants.

USER TIP

Yarn and acid dye is heat set into the dye sites of carpet at a pH of 2. Therefore, it is important to use a rinse and neutralizer after using the extraction cleaners in order to bring the carpet fibers back to an acidic pH of 5-7, in order to avoid oxidation and color loss.

CARPET CARE

Carpet Cleaners For Use On
All Types Of Carpeting.

Traffic & Bonnet Cleaner

Encapsulating Carpet Cleaner

Description:	Pre-Spray & Bonnet Buffing	Dries to soil resistant crystal that is removed by vacuuming

WHAT ARE GEMINI SURFACTANTS?

Gemini surfactants have two hydrophilic head groups, in contrast to conventional surfactants that have a single hydrophilic head. Gemini surfactants can be up to a thousand times more surface active than conventional surfactants.

USER TIP

- **Traffic & Bonnet Cleaner** - Ideal for use as an interim system between extraction cleanings because it uses low moisture, allowing carpet to dry quickly, maintaining a high quality appearance.
- **Encapsulating Carpet Cleaner** - This unique formula dries to a soil resistant powder that can easily be removed by vacuuming and will not clog valves or jets.

CARPET CARE

Specialty Products to be used in a Complete Carpet Maintenance System.

RECOMMENDED COMPATIBLE PRODUCTS

All Purpose Spotter (I70) (pg. 76)
Citrus Gel Spotter (I78) (pg. 76)

WHAT ARE GEMINI SURFACTANTS?

Gemini surfactants have two hydrophilic head groups, in contrast to conventional surfactants that have a single hydrophilic head. Gemini surfactants can be up to a thousand times more surface active than conventional surfactants.

USER TIP

- **I74 & I75 Triple Action** - Because spots tend to expand, make sure to cover the entire area thoroughly. Place a clean, white towel moistened with diluted product over the area to keep damp for at least 24 hours.

WHY TRIPLE ACTION

Triple Action is a three in one product. It is a spotter, deodorizer and pre-spray.

CARPET CARE

Carpet Spotters for Red Stains, Grease & Oil Based Stains.

All Purpose Spotter

Citrus Gel Spotter

RECOMMENDED COMPATIBLE PRODUCTS

Cherry Almond Triple Action (174) (pg. 75)
Fresh & Clean Triple Action (175) (pg. 75)

WHAT ARE GEMINI SURFACTANTS?

Gemini surfactants have two hydrophilic head groups, in contrast to conventional surfactants that have a single hydrophilic head. Gemini surfactants can be up to a thousand times more surface active than conventional surfactants.

USER TIP

- **All Purpose Spotter** - Can be used on iodine stains found in hospitals. To avoid spreading of spot, always work in towards the center of the treated area. Tough stains may be lightly agitated with a soft brush, bone scrapper, clean white towel, or sponge. Some spots, due to age or other factors, may require re-treatment.
- **Citrus Gel Spotter** - Also can be used as a cleaner and degreaser to remove graffiti, adhesive, and mastic.

CARPET CARE SPOTTING GUIDE

1 Triple Action Spotter

2 Rinse & Neutralizer

3 All Purpose Spotter

4 Citrus Gel Spotter

5 Encapsulating Carpet Cleaner

* Apply the Primary Spotter per label directions. Repeat the spotting procedure as long as there is improvement. If necessary, apply the Secondary Spotter(s). Blot and rinse after applying each product.

* Aplique el removedor primario del punto por direcciones de la etiqueta. Repita tan de largo como hay mejora. En caso de necesidad, aplique los removedores secundarios del punto. Aclaración después de aplicar cada producto.

CONVERSION CHARTS

DILUTION MIX RATIOS

Mix Concentrate

1 to 4	32 oz. (1 qt) per gallon
1 to 8	16 oz. (1 pt) per gallon
1 to 10	13 oz. per gallon
1 to 12	11 oz. per gallon
1 to 16	8 oz. per gallon
1 to 20	6 oz. per gallon
1 to 30	4 oz. per gallon
1 to 40	3 oz. per gallon
1 to 64	2 oz. per gallon
1 to 128	1 oz. per gallon
1 to 200	2/3 oz. per gallon
1 to 256	1/2 oz. per gallon

Volume

1 cup	.8 ounces
1 pint	16 ounces
1 quart	32 ounces
1/2 gallon	64 ounces
1 gallon	128 ounces

PARTS PER MILLION (P.P.M.) OF ACTIVE DISINFECTANT IN VARIOUS USE DILUTIONS

Multiply percentage of active disinfectant times 10,000 and divide by use-dilution rate.

$$\frac{\% \text{ Active} \times 10,000}{\text{Dilution Rate}}$$

Example:

Given active percentage is 4.5%
 2.) At 1:128 (1 oz. per gallon)
 $(4.5 \times 10,000) / 128 = 352 \text{ ppm}$

COST TO USE

To Determine Cost to Use

Divide dilution into cost to use

Example:

1:128 dilution selling for \$8.50 a gallon
 $\$8.50 / 129 = .065$ or \$.065 per diluted gallon

OUNCES PER GALLON

To Determine

Ounces per gallon

Divide dilution ratio into 128

Example:

1:32 Dilution
 $128 / 32 = 4$
 Answer = 4 ounces per gallon

APPLICATION COVERAGES

Stripping a Floor	100 sq. ft. gal.
Wet Mopping a Floor	200 sq. ft. gal.
Damp Mopping a Floor	400 sq. ft. gal.
