Food Storage Bags

Royal is proud to announce our line of high quality bags for all of your food storage needs!

From preportioning to storing to packaging, our line of high quality food bags are the best choice for all your needs and makes choosing the right storage bag easy.

All Royal food storage bags are available in HDPE and LDPE materials and are produced with polyethylene resin which fully complies with FDA rule 177.1520 for food contact.

Functional packaging design allows for smooth dispensing in both flat pack and roll pack options.

Retail-friendly dispensing cartons.

Zip-It™ by Royal

- Double track grip to ensure a superior seal so foods stay fresh.
- Durable, dependable low density poly construction (LDPE).
- Convenient write-on blocks to document contents and date.

High Heat Oven Bags and Pan Liners

Our high temperature nylon oven bags and pan liners save cooking and cleaning time while increasing profitability and improving HACCP compliance.

- Cook up to 400°F and freeze to -70°F.
- High temperatures reduce cook time.
- Keeps grease from clogging drain!
- Safe to use in the oven, microwave, slow cooker, steamer and freezer.
- Cook, boil, freeze, microwave and store!

Makes cleanup quick, easy and efficient!

Protects pans from baked-on food.

Locks in moisture, enhancing food flavor!

Freezer-to-oven safe.

Easy to use!

Kosher

Food won't burn, scorch or bake onto pan surface!

No soaking or scrubbing is required, saving labor cost, hot water and chemicals used for cleaning.

No food directly touching the pan reduces the chance of contamination.

Scouring Pads & Metal Sponges

From foodservice and processing to janitorial, building and equipment maintenance cleaning, Royal's disposable scouring pads and scrubbers get the job done right!

Choose among quality grill cleaning supplies, scouring pads, or scrubbers for light, medium and heavy duty cleaning applications. Each affordable, non-chemical based cleaning product delivers consistently powerful cleaning performance when and where you need it!

Light Duty

Offers gentle, yet effective cleaning for most surfaces in kitchens and institutions. Fight dirt, grime and grease with soft, non-woven fibers and mild abrasives that gently clean without scratching or dulling finishes.

Oil Filtration

Diatomaceous Earth

Diatomaceous Earth (filter powder) is an essential ingredient for use in filtering to bring about maximum purification of the used fats or oils. The fluffing qualities, as well as the great surface area, combine to trap contaminants down to the lowest micron sizes without restricting flow-through. **Directions:** Spread 1/2 lb. (2 quarts) or less over the entire area of the filter for best results.

Item#	Pack	Weight	Cube
DE25	25#	26 lbs.	0.89

Frydelite

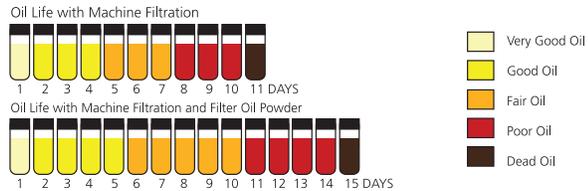

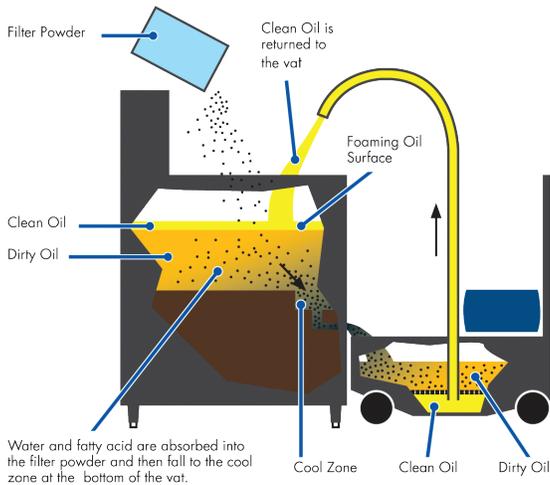

- Highly concentrated blend of alkalies and phosphate gives maximum power to cleaning of deep fat fryers and grills.

Item#	Pack	Weight	Cube

Are you using MAGNESOL?
Then try Miracle Frying Oil Powder for FREE!

Miracle ^{New!}
FRYING OIL POWDER

Miracle frying oil powder is magnesium silicate. Magnesium silicate is used by most major fast food companies in the filtration process to remove minute carbon particles which are a host to bacteria that attack your oil and create acidity. Miracle powder is of the highest food grade standard and is a proven method to increase the life of your oil.

By using Miracle Powder daily you can *dramatically increase the life of your oil and profits!* Your oil will stay cleaner longer and you will serve maximum quality fried food from your clear odor free fryer oil.

HOW TO SIZE UP A FILTER

Measure width and length or diameter of the filter to the outside most points. Note any hole in the filter, the location of the hole and the diameter of the hole.

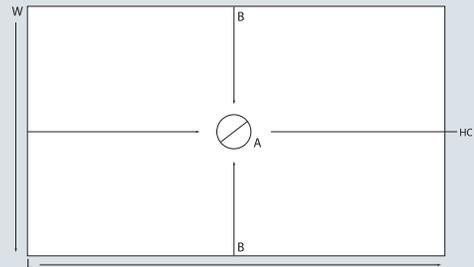

Discs

1. Measure the diameter of the disc.
2. If a hole is present:
 - a. Measure across the opening of the hole to determine the diameter.
 - b. Measure all sides to the outside edge of the hole to determine its position.

Sheets & Envelopes

1. Measure length and width.
2. If a hole is present:
 - a. Measure across the opening of the hole to determine the diameter.
 - b. Sheet - Measure all sides to the outside edge of the hole to determine its position.
Envelope - Measure from the closed or stitched points of the filter to the edge of the hole. You should have 3 measurements for the hole position when you've finished.
 - c. If measuring a hole on an envelope, make a note if the hole is through one side or passes through both sides of the filter.

Filter Discs - Paper

Register Rolls

Register Rolls help simplify accounting so you can attend to business!

Royal provides options for all your needs with quality receipt tape in three major styles: Bond, Carbonless or Thermal.

Register rolls are used in a variety of applications to provide a paper record of transactions at ATMs, POS printers and cash registers.

White Bond 1-Ply

Our traditional, 1-ply White Bond register receipt tape delivers trusted results in standard POS systems that generate a receipt of itemized charges for payment. The quality bond paper fits ATMs, POS printers and cash registers. Choose from various widths, lengths and bulk packaging designed to meet your needs.

Item#	Size	Pack	Length	Weight	Cube
RR1225	2.25"	1/40	130'	17.45 lbs.	0.37
RR1300	3"	1/30	150'	15.00 lbs.	0.45
RR1325	3.25"	1/30	165'	16.56 lbs.	0.49
RR1381	38MM	1/50	130'	16.84 lbs.	0.59
RR1441	44MM	1/50	130'	14.00 lbs.	0.38
RR1450	4.25"	1/20	160'	10.74 lbs.	0.49

2-Ply Carbonless

Carbonless register POS style receipt tape is used to verify credit card charges in hotels and full service restaurants, grocery stores and retailers.

The 2-ply receipt is made from quality paper with a white and canary yellow customer copy and is designed to fit ATMs, POS printers and cash registers. It's available in 90' length rolls in varying widths and bulk packaging.

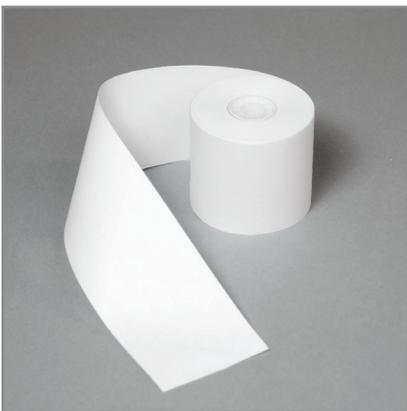

Item#	Size	Pack	Length	Weight	Cube
RR2225	2.25"	4/10	90'	14.10 lbs.	0.49
RR2300	3"	1/30	90'	15.00 lbs.	0.49
RR2325	3.25"	1/30	90'	16.96 lbs.	0.56
RR2450	4.5"	1/20	90'	13.20 lbs.	0.49

Thermal

Thermal register roll tape is made from quality heat sensitive paper that produces a black image from a thermal printer and fits many common credit, debit and POS machines.

It's used in ATMs, POS printers and cash registers and is great in kitchen printers to generate an itemized receipt of the customer's charges. Shrink-wrapped inner package.

Item#	Size	Pack	Length	Weight	Cube

Morning Fresh Anti-Oxidant

Free of Sulfites and Sodium

Directions: Mix one teaspoon per gallon of cold water. Morning Fresh must be completely dissolved in the cold water. Fruits-Vegetables-Potatoes must be dipped in the solution for 1 minute prior to cutting, peeling or slicing. After 1 minute the items should be removed and drained. The products should be cut, sliced or peeled and placed back in the solution for another 2 minutes. After 2 minutes the items should be removed and drained again. Place the items on a tray for service or refrigerate until they are ready to be used. Make a new solution each day.

Beard Covers • Face Masks • Hoods

Latex-free and provide an ideal facial hair and particulate barrier from contaminating food, equipment or manufactured items.

They're available in economical, lightweight polypropylene and stronger nylon honeycomb netting for complete beard coverage with a comfort fit.

Polypropylene

Economical particulate barrier protection for all day use. The breathable spunbond material is a cost-effective choice for sanitary protection.

- Great for use in institutional foodservice; food processing facilities; industrial settings and more.

Nylon Honeycomb

Made of soft nylon with larger holes and a greater aperture providing less material shedding while blocking more particulates. The breathable open weave material provides a lasting comfort fit.

- Ideal for use in healthcare facilities; pharmaceutical manufacturing; food processing and industrial settings.

Disposable Gloves

From prepping salads to slicing sushi, Royal's highest quality disposable gloves provide comfort fit and superior performance.

Choose from a wide array of materials for multiple applications in the food service and janitorial industries. From economical poly to puncture resistant nitrile gloves, Royal has the style, fit and function for every need!

Vinyl Gloves

California Proposition 65 compliant. Made of PVC (poly vinyl chloride) and give a closer fit for medium duty tasks requiring optimal sensitivity.

- Latex-free, ambidextrous, and flexible.
- Beaded cuffs provide maximum strength and durability.
- Excellent wet and dry barrier protection.
- Can be used near a heat source and protect hands in light cleaning situations.

Poly Gloves

PREMIUM Poly

Economical Poly

Satin Feel (Cast Poly)

Elbow Length Poly

Poly gloves offer the best low-cost option for light tasks that require frequent glove changes. The low density material provides excellent wet barrier protection and complies with Good Manufacturing Practices (GMP) and FDA standards for safe food handling.

- **Premium Poly:** Royal's heaviest poly glove offering made from 100% LDPE, offering superior performance and hand comfort.
- **Economical Poly:** Best economical barrier solution where constant glove changing is required, especially in food operations.
- **Blue Economical Poly:** Easily identifiable, low cost, loose-fitting gloves great for light tasks requiring frequent glove changes.
- **Satin Feel Poly Gloves:** (Cast Poly): A heavier version Poly Glove, Satin Feel gloves from Royal are an excellent alternative to traditional poly gloves offering increased dexterity and a smooth, cool, comfortable fit that is still more economical than Vinyl or Latex alternatives.
- **Elbow-Length Poly:** Loose-fitting poly gloves provide excellent coverage when frequent glove changing is necessary. Long enough for reaching into deep food containers.

Arm Guards

Royal's Arm Guards offer elbow to wrist protection from dry particulates and fluids and come in an assortment of materials for numerous applications; polyethylene, PVC, polypropylene and Keyguard®.

Polypropylene

Our spunbond polypropylene is a lightweight, breathable fabric that provides quality economical protection from dry particulates. It's the best low cost choice for wear in the non-toxic workplace.

- Ideal for use in bakeries; produce applications; medical device assembly.

Polyethylene - Lightweight

Impervious to fluids and provides an excellent barrier against water, moisture, organic solvents and light chemicals. It's a cost effective choice for maximum fluid protection!

- Great for use in poultry and meat packing and food processing; dry food manufacturing; candy manufacturing; industrial facilities; medical device assembly.

PVC - 6 Mil

Royal's disposable poly vinyl chloride (PVC) is a 6 mil fabric that's strong, flexible and non-linting that offers excellent wet and dry protection.

- Great for use in pharmaceutical manufacturing; janitorial cleaning; food processing; medical device assembly.

KeyGuard®

KeyGuard® is a cost savings alternative to Tyvek® and provides outstanding durability and protection against dry particulate and fluids in non-toxic environments. The comfortable micro porous polyolefin fabric is impervious to chemicals and is very effective for every application wherever Tyvek® is used.

- Great for use in pharmaceutical manufacturing; medical device assembly; toy industries.

Isolation Gowns

Royal's isolation gowns deliver an ideal barrier against dry particulates and fluids in non-toxic environments such as industrial food processing or in research and development facilities.

Available in both polyethylene, that's impervious to fluids, and polypropylene, that's lightweight and cost-effective, our Isolation Gowns deliver maximum protection for a minimum price.

Polyethylene with Thumb Loops - Great for wet applications!

Provides optimum splash protection that's impervious to fluids. The material resembles plastic and does not have breathability, making it an ideal barrier that isolates bacteria and dust. Plus, the thumb loops minimize slippage for ease of application.

- Great for use in poultry and meat food processing facilities; auto body shops; and cleaning supply industries.

Shoe Covers

Royal's Shoe Covers offer lightweight splash protection from non-hazardous liquids and dry particulates in non-toxic environments.

They come in assorted materials that are a perfect fit for visitors, light duty applications, or general purpose coverage.

RSC150-NS Blue with white tread

Polypropylene - Great for dry applications!

For a lightweight shoe cover that offers quality barrier protection from dry particulates, our Polypropylene Shoe Cover is a great choice! The breathable fabric is hand-crafted with a non-skid sole and offers economical protection for use in the non-toxic workplace.

- Ideal for use in healthcare and pharmaceutical facilities; electronic device assembly; commercial and institutional foodservice, cable TV repair and more!

RSCCLP-150E

Cross Linked Polyethylene - Great for wet applications!

Lightweight, waterproof fabric that creates an effective barrier against water, moisture, organic solvents and light chemicals. The lint-free fabric doesn't particulate and is the best low cost option for maximum fluid protection!

- Perfect for healthcare professionals in hospital, clinics and labs; pharmaceutical manufacturers; and food processing facilities.

RSCSS-150W

Super Sticky Polypropylene - Great for traction in both wet and dry environments!

Assures this shoe cover offers strong, non-skid protection in the workplace. Spunbonded polypropylene has a coated EVA-PE film (with a special treatment) and gives excellent traction on workplace floors.

- Perfect for pharmaceutical and healthcare facilities; manufacturing industries.

Lab Coats

Our lab coats are all snap front, single collar, no pockets and elastic wrists and available in polypropylene, SMS, and Keyguard® materials.

Whether it's a lightweight visitor's coat or complete coverage to protect against chemical exposure, Royal offers a wide selection of top quality and performing materials for every application. Select from a wide variety of materials that are economical, reliable, comfortable and meet IEST.org standards and practices.

Polypropylene

Lightweight and breathable polypropylene fabric is strong, durable and comfortable for all day wear and is the perfect economical choice for non-toxic environments.

- Best for use in bakeries; dental labs; electronic device assembly and lab settings.

Heavy Duty Polypropylene

Flexible yet strong and delivers outstanding particulate barrier protection in non-toxic environments. Features provide lasting comfort and secure fit.

- Ideal for use in food processing facilities; pharmaceutical manufacturers; and any industry that requires strong barrier protection.

KeyGuard®

A cost savings alternative to Tyvek® and provides outstanding durability and protection against dry particulate and fluids in non-toxic environments. The comfortable micro porous polyolefin fabric is impervious to chemicals and is very effective for every application wherever Tyvek® is used.

- Ideal choice for pharmaceutical and medical device applications; electronic device assembly; and research and clinical facilities.

SMS

Provides an excellent fluid and particulate barrier in non-toxic environments without sacrificing mobility and comfort. SMS barrier fabric is a unique tri-laminate polypropylene fabric that offers high tensile strength and toughness but is also soft and drapable. Its breathable, wearable and non-tearing qualities offer superb barrier protection while keeping the wearer cool and comfortable.

- Ideally suited for pharmaceutical and medical device assembly; pharmaceutical and dental labs; and general manufacturing.

Material Descriptions

Polypropylene

Spun-bonded polypropylene. Lightweight, breathable fabric provides economical protection.

Applications - non-hazardous, grimy work environment applications.

Laminated Polypropylene

Coated polypropylene with a solid sheet of polyethylene. An economical solution for light non-hazardous splash protection.

- impervious
- non-linting
- great tensile strength

Applications - pesticide spraying, asbestos and mold remediation, painting, and in any wet general maintenance areas.

Sticky Polypropylene

A spun-bonded polypropylene coated with EVA-PE film. The coated film on the polypropylene ensures strong non-skid traction.

Applications - pharmaceutical and healthcare facilities; manufacturing industries.

Polyethylene (PE)

Excellent, cost effective protection. Unlike polypropylene, it resembles plastic and does not have breathability.

- Impervious to fluids, moisture, most organic solvents and light chemicals.

Applications - bakeries, produce applications, medical device assembly.

Polypropylene

Sticky Polypropylene - RSCSS-150W

Polyethylene (PE) - RPAG-500

Poly Vinyl Chloride (PVC)

Disposable, strong, flexible and non-linting.

- Excellent wet and dry protection.

Applications - janitorial, food service and processing industries.

PVC - DA3545-6PVCRW

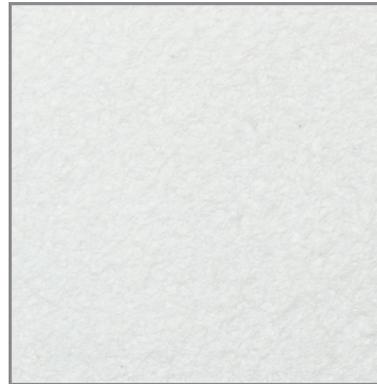

KeyGuard®

A new cost savings alternative to Tyvek®.

Keyguard is a micro porous polyolefin fabric that is very effective everywhere Tyvek® is used.

- Outstanding protection, durability and comfort.

Applications - cleanroom applications as in pharmaceutical manufacturing and electronic device assembly areas.

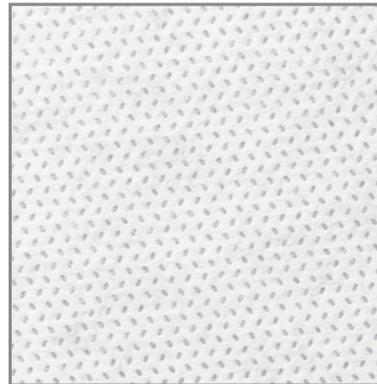

KeyGuard®

SMS

SMS barrier fabric is a unique tri-laminate construction that offers high tensile strength and toughness yet is also soft, drapable.

- Strong and durable fluid and particulate barrier.
- Lightweight and resistant to tears and punctures.
- Outstanding comfort, breathability, softness, and wearability.

Applications - pharmaceutical and medical device assembly; pharmaceutical and dental labs; and general manufacturing.

SMS

About Royal

Since 1949 our family business, Royal Paper Products, has taken great pride in providing the finest personalized service and the highest quality products. Royal's top priority is our customers. We ensure that our customers always receive the best service and knowledge when dealing with our products.

From its humble roots, Royal Paper Products, Inc. is today, the leading importer and supplier of over 1,000 disposable products

for the foodservice, hospitality and janitorial industries, and sells through a growing army of distributors, brokers and a sales force throughout the U.S. and abroad.

Remember:

At Royal you are not just another customer: you are part of "The Royal Family".

Royal goes green

Royal remains focused on helping to protect our Earth. It is our goal to reduce our carbon footprint by examining all stages of our business including product development, manufacturing, operations & logistics. In support of this commitment, we are introducing a new  to help our customers make GREENER choices!

When you see this  next to an item, it means that item reflects our commitment to the environment so you too can feel good about the product choices you are making. With your continued support, Royal will remain focused on helping to protect our environment for generations to come.

Policies

ORDERS

All pricing and specifications are subject to change (including freight minimums) without prior notice. All orders are subject to mill acceptance. If any one line item or product group constitutes more than 50% of the total value of the order, it may be subject to mill approval and/or a freight surcharge.

STANDARD PAYMENT TERMS

Royal offers a standard 1% cash discount on invoices paid within 10 days of invoice date. Invoices are to be paid in full within 30 days of invoice date. Invoices that are past due are subject to a 1.5% per month late charge calculated on the unpaid balance. The cash discount is calculated after freight.

MINIMUMS

The minimum order for The Royal Line is \$100.00, except for special print items. Orders under the minimum are subject to a small order charge of \$15.00. Please contact Royal: customerservice@royalpaper.com for more details.

CREDIT CARD PAYMENTS

If you choose to pay by credit card, please be advised that there is a 3% service fee added to the order (3% of the order total including delivery charges, if applicable). Upon receipt of payment, your order will ship from our facility. Please note that credit cards are also accepted for invoice payment (the 3% service fee does apply to these transactions). The following credit cards are accepted: Visa, MasterCard, American Express, and Discover.

FREIGHT

Royal's minimum for prepaid freight, within the continental United States, is \$2,000.00 of assorted merchandise. All items may be combined to

meet our minimum for prepaid freight, with the exception of our chef hat line. Chef hats will ship prepaid if the initial order without the chef hats exceeds the \$2,000.00 minimum. Royal will designate the method and agency of transportation and routing of shipments that qualify for prepaid freight. Routing specified by a customer, which results in additional cost above normal freight rates, will be billed to the customer. Any additional charges incurred, such as inside delivery, detention charges, sorting and segregating of merchandise, etc. will be billed to the customer.

CANADIAN SHIPPING

- Price quoted is FOB Destination Continental U.S.
- Minimum order for Pre-paid Freight is \$2,000.00
- Orders for less than \$2,000.00 will have freight added to invoice

Customer/Distributor is responsible for the following:

- Broker to clear border
- All applicable "Duty and/or Taxes"

RETURNS

Product returns may not be accepted after 6 months from invoice date. Requests for returns must be submitted in writing listing the item, quantity, date of purchase, purchase order number, invoice number, and a reason for requesting the return. No merchandise is to be returned without written return authorization from Royal Paper Products, Inc.

All returned items must be full cases in resalable condition, subject to inspection and repackaging charges. Upon receipt of a return, credit will be computed at the purchase price, less a 15% restocking charge, less outbound and return freight charges, less repackaging charges if applicable. Special order/print items may NOT be returned.
